Supplementary List

Supplementary List

A L P I N E P L A N T S

Grether & Son.

Midland, Michigan

This supplementary list contains choice and rare alpine, novelties and gems among rockplants by the dozens, propagated from imported stock or raised from scarce seeds. There is not enough space to do them justice in praise. Fit to adorn the choicest corner of the rockgarden, yet their treatment requires hardly any complications.

New shrubby Alyssums from the Mediterranean regions, alpine bell flowers of special charm, beautiful Anemone Lavally from China, the yellow Forgetmenot from Tasmania, the blue perennial snapdragon, little Statice minuta, as well as our western native Phlox Douglassi, tamed in its hybrid form, together with scores of others of high rank, make up this unusual list.

The stock of some of these new plants is limited. Orders will be filled in the succession in which they reach us. Order early to avoid disappointment.

For terms we refer to our main list.
